### EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

2. Authorization for this examiner's amendment was given in a telephone interview with Brent Vecchia on Thursday, December 2, 2004.

3. The application has been amended as follows:

#### Claim 51

Line 6, "packet including control information;" has been replace with, --special cycle packet including control information;--

Line 13, "the second hub and the third hub." has been replaced with, --the second hub and the third hub, to act as if SERR# was received.—

#### Claim 69

Line 5, "," has been replaced with, --, wherein the packet including the control information comprises a special cycle packet embodying virtual wire control information;--

*Allowable Subject Matter*

4. The following is an examiner's statement of reasons for allowance: the prior art does not teach or fairly suggest **a bus capable of using a source synchronous data transfer technique that is capable of being quad-clocked, and control information including a special cycle packet embodying virtual wire control information.** It is noted that the closest prior art, Ellis (U.S. 6191713 B1), teaches a system capable of passing messages between the memory control hub and a input-output hub through packets transmitted on the bus, the messages including information about signals received from one or more of the processor, the memory, and the input-output device.

5. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
